THE ASSOCIATIONS

The EUF is the Representative Body for the Factoring and Commercial Finance Industry in the EU. It comprises National and International Industry Associations that are active in the EU.

The EUF seeks to engage with Government and legislators to enhance the availability of finance to business, with a particular emphasis on the SME community. The EUF acts as a platform between the Factoring and Commercial Finance Industry and key legislative decision makers across Europe, bringing together national experts to speak with one voice.

The EUF is a source of reference and expertise between the factoring and Commercial Finance Industry and key legislative decision makers across Europe. Its aim is to provide legislators and policy makers with vital Industry information to inform, influence and assist with the direction of existing and future finance legislation. It seeks to ensure the continued provision of prudent, well-structured and reasonably priced finance to businesses across the EU.

FCI was set up in 1968 as an umbrella organisation for independent factoring companies around the world. Today it has grown into the world's representative factoring network and association with close to 400 members in 90 countries.

Facilitating Open Account – Receivables Finance

When FCI started, domestic factoring was only available in North America and in a few European countries. The concept of cross-border factoring was still new and restricted by its lack of geographic reach. Recognising the potential for international factoring, the founding FCI members realised that an umbrella organisation was needed, firstly to introduce factoring in countries where it was not yet available, and secondly to develop a framework for international factoring, which would allow factoring companies in the country of the exporter and the importer to work closely together. Today, FCI is truly the global representative body for the Factoring & Receivables Finance Industry.

FCI offers three major areas of activities:

CONNECT: the Business network supports cross-border factoring activities through which its members cooperate as export and import factors

EDUCATE: FCI promotes and develops best practices in both domestic and international factoring and related Open Account Finance products

INFLUENCE: FCI promotes and defends the Industry with stakeholders and policy makers worldwide
